

Downloading and Installing SYNC

1. Please go to www.bushnellgolf.com, you will see **New GPS Users- Click Here** on the left hand side

2. This will get you into the New Users page, on which you will need to select the type of GPS that you have.

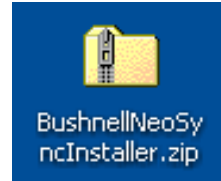

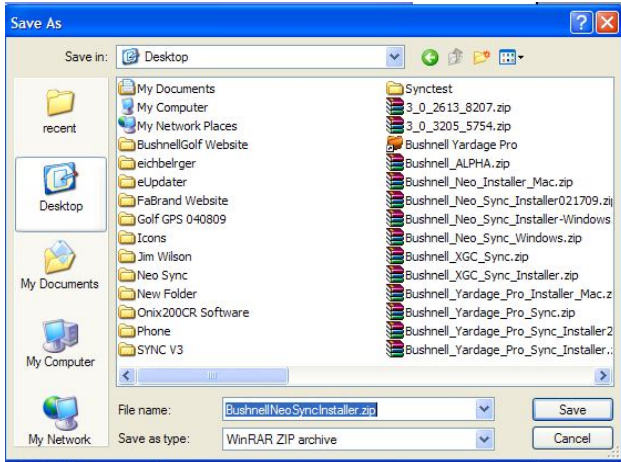

3. Once you have selected your type of GPS you will then need to select which type of software that you want to download.

- Download for Windows- (2000, XP, Vista)
- Download for Mac- (10.4.4 Intel Mac)

4. After selecting your Type of GPS you will get a box on the screen to **SAVE** the zip file to your computer. Select **Save**
(Depending on your Internet Browser the next few steps will vary)

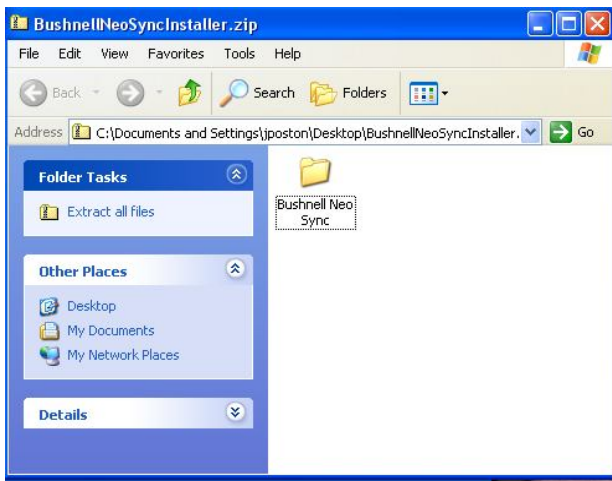

Downloading and Installing SYNC

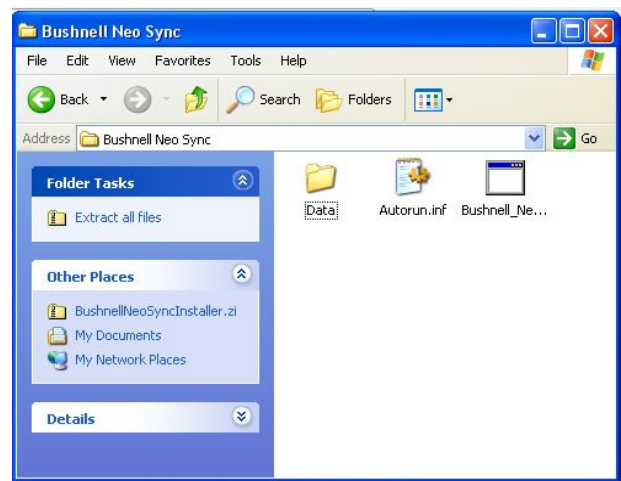

5. You will need to save the zip file to your Computer (preferably to the Desktop) *In a location it will be easily found.*

6. On the desktop of the computer, or in the directory you chose to store it in, there will now be a zip file, please double click this file.

After the file has been saved to the Computer, we will need to double click the zipped file to un-zip it. Once the file is un-zipped you will have a icon for the Bushnell GPS Installer.exe. Please double click this file to begin installation.

7. Inside of this folder there is a file that should have the name of the GPS Installer: Double click this folder.

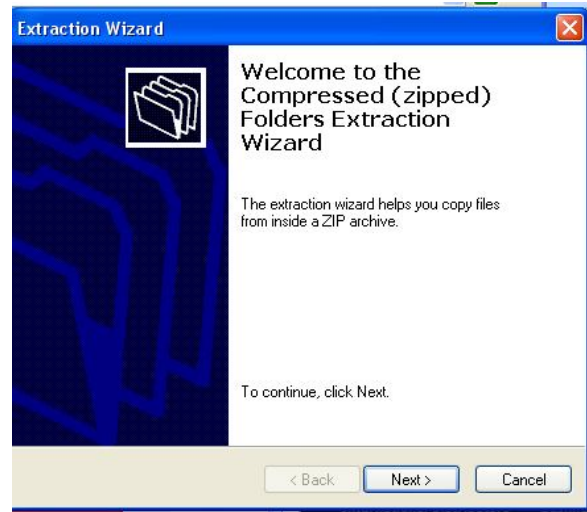

8. Inside of this file you will have three files, double click the Bushnell_file

Note: BushnellNeoInstaller, BushnellYardageProInstaller

Downloading and Installing SYNC

9. It will ask you to extract this file, select "Extract All"

10. The Extraction Wizard will now open and you will need to select Next

11. Hit Next again

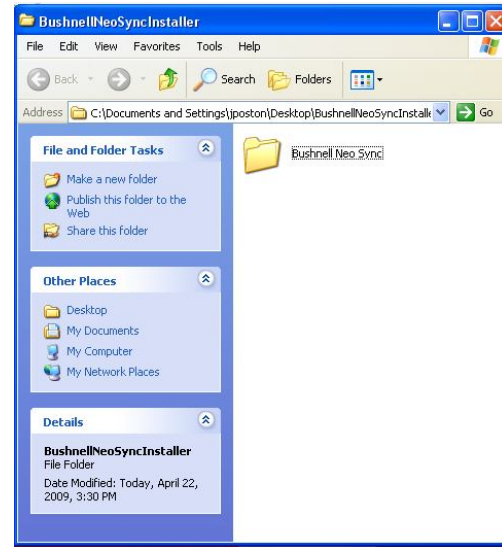

12. The Extraction will begin (this process can take a few minutes to complete depending on how fast there computer is)

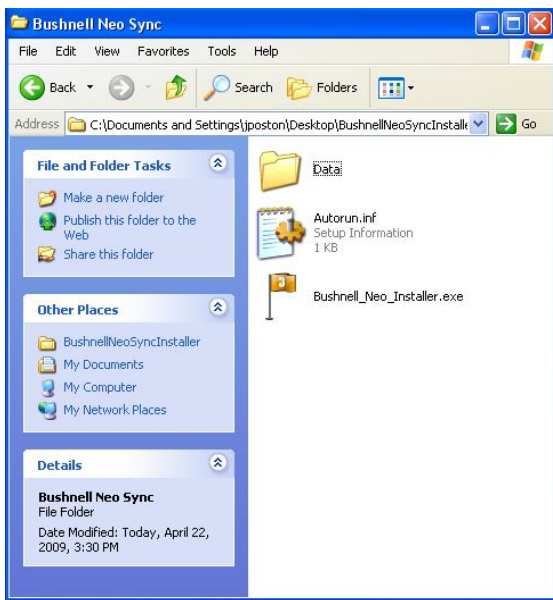

Downloading and Installing SYNC

13. When this is completed you will select Finished

14. A new window will open with the installation file. Please select the folder by double clicking it.

15. Inside of this folder there will be a flag stick with the number 3, this is the installation file. Please double click this file.

16. You will be asked if this is a trusted software please select "Run"

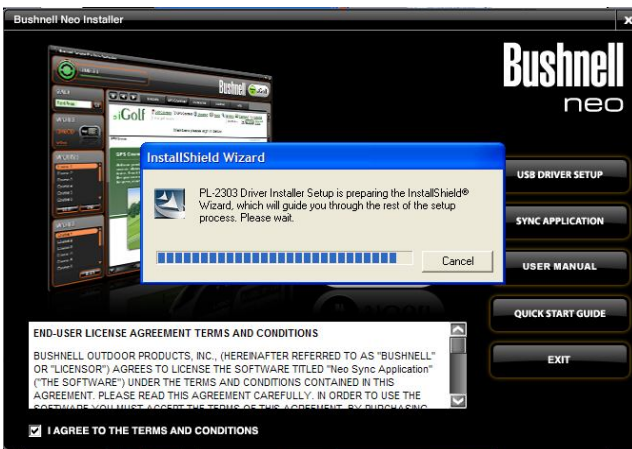

Downloading and Installing SYNC

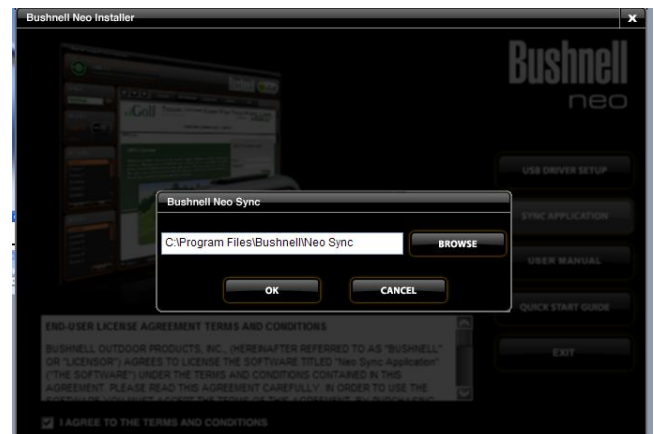

17. Now the installation screen will appear. You are now ready to install the software for the Bushnell GPS.

18. The opening screen for the installation will appear. Please select the check box for I agree to the terms and conditions.

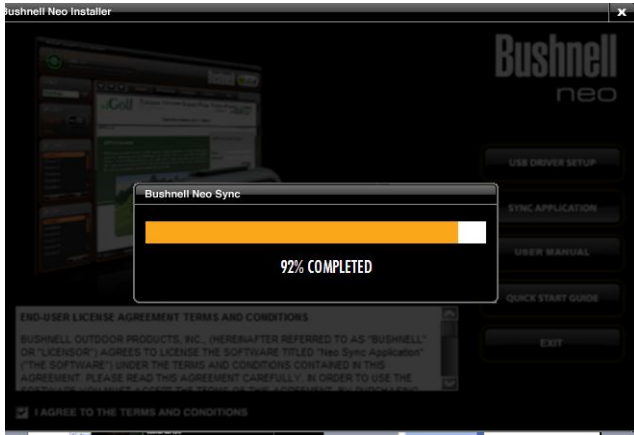

19. Then select the first option USB Driver Set Up, this will then start the installation.

20. Once the driver is installed we will need to select the second option. Sync Software, it will then ask where you would like to install the software, select OK.

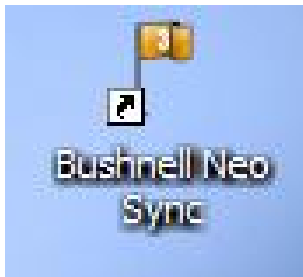

Downloading and Installing SYNC

21. The installation will begin and go from 0% to 100%. Once it has gone to 100% the installation is then complete.

22. After the software is completed you then can select Exit on the installation screen.

23. On the desktop of the computer you will now have a flagstick icon with the #3, double click this to open the application.

24. If you are having difficulty downloading your selected golf course please check our other Quick Start Guide for **Downloading and Transferring Golf Courses**. You can also contact our customer support at 1-800-423-3537, then option 2 for Technical Support.
