

1 Install Software

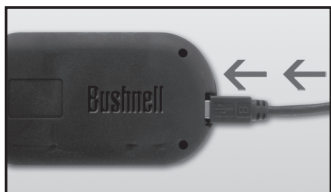

- Insert CD included with your product into computer.
- Open the appropriate CD drive to view disk contents.
- Select “Bushnell Neo Installer” to start the install.
- Select “USB Driver Setup” to install required drivers.
- Select “Sync Application” to install sync software.
- Launch software from “Bushnell Neo Sync” icon on desktop.

Note: Software updates available at: http://www.bushnellgolf.com/gps/yardage_neo.cfm

2 Connect Cable

- Connect provided cable to available USB port on computer.
- Insert other end of cable into mini USB port on device.
- Hold power button for approximately 2 seconds.
- “USB Mode” message will appear on the device when ready to accept data.

3 Download GPS Data

- Launch Bushnell Neo Sync application, and click the “GPS Download” tab. Fill in the “Join Now” info to setup an iGolf membership (if already a member, just “Log In”).
- Once logged in to iGolf.com, enter the name of a golf course, select the country from the “All Courses” pulldown, and click “Search.” Find your course in the list of search results.
- Under “GPS” for the course listing, click “Yes,” then “Download GPS & Scorecard”.

Note: Once successfully downloaded, the course name will appear in the “My Courses” section in the left column of the sync application.

4 Sync GPS Data

- Select and highlight course(s) to load onto the device from the “My Courses” section in the left column of the sync application.
- Select the “Send” button to transfer the course(s) to the device.
- Once transfer is complete, disconnect the cable from device.

5 Play Golf

- Proceed outside, away from tall buildings and trees, for clear view of GPS satellites.
- Hold power button for approximately 2 seconds, highlight “Play” and press “Enter”.
- Locate course you are playing and press “Enter”.
- Use buttons to change screens and advance hole.

Note: Initial satellite acquisition may take up to 5 minutes.

Satellite strength may be diminished due to obstructions or cellular signals.

If you require further assistance, please review the support resources available online at: http://www.bushnellgolf.com/general/customer_service.cfm or click the “QUICKSTART” and “FAQ” tabs at the bottom of the “Neo” section of the GPS Rangefinders page at www.bushnellgolf.com. Otherwise, refer to the Owner’s Manual for detailed information on using the Bushnell Neo.
